In re "Conference with Liquor Dealers."

A committee representing the allied liquor interests of San Francisco, appeared before the Board and requested that they be permitted to confer

with the Board in respect to certain matters affecting their interests.

The request was granted, and a special meeting of the Board called for Feb. 14, 1903, at 3 o'clock P.M., for the purposes of the conference.

The Board then adjourned.

Secretary

February 14, 1903

Special Meeting.

The Board of Police Commissioners of the City and County of San Francisco, met, on February 14, 1903, at 3:00 o'clock P.M., in special session, pursuant to adjournment.

Present: Commissioners Smithhouse, Sutton, Howell, Newhall  
President Newhall presided.

The Hon. E. C. Schmitz, Mayor, sat with the Board.  
The reading of the minutes of previous meetings was ordered deferred.

Conference with representatives of Retail Liquor Dealers.  
President Newhall announced that the meeting had been called for the purpose of holding a conference with committees representing the liquor interests of the City and County.

A committee of nine, representing the liquor dealers, and consisting of Theodore Linstedt, president of the California Liquor Dealers' Association; William Black, Fred W. Bent, and Edward L. Wagner of the executive committee of the same organization; Walter Wiley, H. M. Warden, and Gustav Lockhart of the Brewers' Association, and E. R. Lichtenhal, Thomas Kirkpatrick and R. J. Tausig, representing the wholesale liquor dealers, appeared to confer with the Board.

Mr. A. Ruff, appeared, as attorney and spokesman for the liquor dealers.

After the calling of the session to order Attorney Ruff requested that the conference should take place in executive session, maintaining that there would be more freedom in the discussion.

The request was denied on the following vote:

For executive session: Commissioners Smithhouse, Newhall

Against executive session: Commissioners Sutton, Howell.

Mr. Theodore Linstedt, representing the committee, addressed the Board at length, defining the attitude of the liquor dealers upon side entrances, private booths, rooms and boxes, female patrons, concert halls, groceries with saloon annex etc., and requested the Board to declare its policy, stating that the liquor dealers were anxious to

co-operate with the Board in the regulation of the liquor traffic.

The Honorable E. E. Schmitz, Mayor of San Francisco, expressed his views, stating that he favored the demands of the liquor dealers and that he would suggest to the Board to accept their offer of co-operation with the Police Department in the regulation of the liquor traffic, as he believed that the organizations represented before the Board were acting in good faith, and were strong enough to fulfil their promises.

President Newhall requested the liquor dealers to formulate their demands, stating that the Commission would take them under advisement and would render a decision at a future date covering the demands and the general arguments presented. Mr. Linstedt then submitted the following five demands:

1. That licenses should be granted to applicants who want to maintain side rooms, connected with saloons, with the understanding that only women who are accompanied by escorts are to be served.
2. That licenses should be granted to applicants who wish to maintain sitting rooms for the accommodation of their patrons, when such consist only of males.
3. That licenses should be granted to applicants who wish to conduct a grocery and bar in combination.
4. That licenses should be granted to applicants who desire to keep a concert hall without boxes or green room, and who propose to reserve a section of their house for the exclusive use of women and their escorts.
5. That licenses should be granted to applicants who want to serve drinks in rooms connected with legitimate restaurants.

A general discussion then ensued between the members of the Board, and Messrs. Ruff and Linstedt, the latter arguing in favor of the demands submitted.

The matter was then taken under advisement.

Ayes: Commissioners Dinkhouse, Kutton, Howell, Newhall.

The Board then adjourned.

Opinion of the Board of Police Commissioners in relation to the demands of the liquor dealers presented on February 13, 1903.

To the Liquor Dealers:-

Gentlemen

The conclusions of the Police Commission upon the matters presented to us on Friday last, February 13, 1903, are as follows:-

Upon your "First Proposition":

"That licenses should be granted to applicants who want to maintain side rooms connected with saloons, with the understanding that only women who are accompanied by escorts are to be served;

we are of the opinion that it would be impossible to exclude women not accompanied by male escorts from saloons with private boxes, and are fully satisfied that neither the saloon keepers nor the Police Commissioners could enforce such a rule. Some of our reasons for denying applications for licenses to saloons that have maintained private boxes patronized by women, with or without male escorts are: First. Such boxes are peculiar to the liquor trade of San Francisco and some Pacific Coast cities, in many of which they are now being removed, and are permitted in no other part of the world, as far as our information leads us.

Second. We believe the existence of such boxes to be prejudicial to the moral welfare of San Francisco.

Third. We believe it to be demoralizing to a woman to drink in a liquor saloon with or without private boxes.

Fourth. Saloons with boxes patronized by women with or without male escorts have been endeavoring to gain a foothold in the residence districts of San Francisco. The Police Commission is emphatically opposed to them there, and not being able to consistently refuse an application for a license to a saloon with such boxes in one part of the City and grant it in another, we think that all such licenses should be denied.

Fifth. That there are more than 3000 saloons in San

San Francisco at this time. At least seventy five have by order of the Police Commission removed their private boxes within the last two or three months, and the proprietors generally express satisfaction. There are less than an equal number now remaining. We are convinced that it is the wish of the general public, and a great majority of the saloon keepers in San Francisco that such boxes be entirely removed, and but a small minority of either are in favor of their retention.

Sixth. We believe that private boxes in saloons attract young girls who there get their first introduction to vice.

Upon your second proposition.

"That licenses should be granted to applicants who wish to maintain sitting rooms for the accommodation of their patrons, when such consist entirely of males."

we beg leave to state that the Police Commission has not now, and never had any objection to sitting rooms in saloons that are entirely patronized by males, providing that their arrangement is in accordance with law.

Upon your third proposition.

"That licenses should be granted to applicants who wish to conduct a grocery and bar in combination."

we believe that business is also peculiar to San Francisco, and that such combination is prejudicial to its family interests, but we are reluctant to disturb what has the appearance of a vested right in those now existing. We are opposed to granting licenses to applicants desiring to open new places.

Upon your fourth proposition.

"That licenses should be granted to applicants who desire to keep a concert hall without boxes or grain room, and who propose to reserve a section of their house for the exclusive use of women and their escorts."

we beg leave to state that within the last two months propositions of that character have been made by us to people conducting such places, and in each instance we have been told that it was impossible to conduct them in that manner.

Upon your fifth proposition.

"That licenses should be granted to applicants who want to serve drinks in rooms connected with legitimate restaurants."

The commission has never yet objected to granting a license to such a place, and it is not our intention at this time, to refuse a restaurant keeper who desires to sell liquor with meals in private boxes provided no bar is maintained, and drinks are served only with meals. Our recollection is that that was the desire of your Committee.

The Commission does not at present think it well to prohibit the sale of liquor in private boxes in places that are known as Road Houses, remote from the City's residence or business locations, operating under an hotel license.

In respect to the statement that was made to us that "saloon keepers were frequently haled" (such was the expression) before the Police Commission without cause we beg leave to state that in no instance has such a proceeding been had.

With respect to the statement that parties have been told by the Police Commission that they could erect boxes for drinking purposes in saloons, and were subsequently ordered to take them out, we beg leave to state that in no case has such a thing occurred. If the claim is based upon the fact that during the year 1900, the Police Commission, as a compromise, accepted

saloons with boxes with apertures cut in the walls, the lower edge of which was 6 feet from the floor, so that they would conform to the law, and it is now refusing to grant licenses where such boxes exist, the course of the Commission is perfectly justified from the fact that it was almost generally the practice of saloon keepers during the year 1902, to cover such apertures with cloth or paper, so that in effect the cutting of such apertures was entirely useless, and the boxes were restored to their original condition, all in violation of the ordinance. With respect to the impression that seems to prevail among certain saloon keepers in San Francisco that the Police Commission imposes unnecessary hardships upon those seeking new licenses, we beg leave to state that since January 1902, licenses in number of about 50 have been revoked or refused by the Commission in districts for causes that we believe to be, and were for the public good, yet there has been a general increase and there are now more saloons and grocers selling liquor in San Francisco than in January 1902.

Our desires are among others to improve the condition of the liquor business in San Francisco, by, among other things, trying to restrict the number of saloons in all localities, so that each can conduct a profitable business, and to eliminate some of the features therefrom that have brought to it considerable discredit, and generally to promote public welfare, which we consider paramount to all else.

The Board of Police Commissioners The Secretary was instructed to direct a suitable communication to Mr. Ernst, President California Retail Liquor Dealers' Association, enclosing a copy of the foregoing opinion.

Relative to the unlicensed sale of liquor and illegal  
gambling, alleged to be taking place in the  
vicinity of the Lombard St. entrance to the Presidio.  
The Chief of Police called to the attention of the  
Board an article in the "Chronicle" of March 12, 1903,

Military Reservation & that illegal gambling, and

The number of arrests made for selling liquor without a license and reciting in general the measures taken to preserve law and order in the neighborhood.

Reports by the Sergeants and Police Officers were also read.

The Board being thoroughly conversant with the conditions prevailing in the locality complained of, such being due to the large number of troops quartered at the Presidio, being satisfied that the Department had done its utmost to cope with the difficulties presented, in view of the fact that the Police Courts were unwilling to aid the Police Department by taking drastic measures in regard to persons convicted of offenses committed in the locality, ordered that the reports be filed, and the matter dismissed.

DAVID F. JOHNSTON.

The Board of Civil Service Commissioners certified at the request of this Board the following named persons as standing on the Register of Candidates eligible for appointment as Police officers with the rank as set opposite their respective names, they being the candidates highest in rank upon said eligible Register, and next in order of appointment:

NAME	RANK
Jerome Madden	60

The following resolution was therefore adopted:

RESOLVED, that the Secretary be and he is hereby instructed to direct a communication to the Board of Civil Service Commissioners informing them of the action of this Board in temporarily passing the appointment of David F. POLICE OFFICER JOHN C. STELZNER.

In regard to the heroism displayed by Police Officer John C. Stelzner in rescuing a boy from death under the wheels of a Geary street cable car, the following communication was read and it was ordered spread upon the minutes:

"In the matter of the rescue of the child, Charles Clark, from under the wheels of a Geary street car on July 16, 1903, by Police Officer John C. Stelzner.

"STATEMENT OF DR. C. H. CARLSON."

"John B. Martin Esq.,

"Acting Chief of Police,

City.

"Dear Sir:

"Being an eye witness to the saving of a human life by a member of your department, I wish to furnish an account of the affair as I saw it, so that proper credit may be given the officer who so nobly risked his life to save that of a little child.

"My name is C. H. Carlson, and I am a practicing physician and surgeon of this city, with offices in rooms #33 and #34 of the Star King Building on Geary street.

"About half past 12 o'clock on the afternoon of July 16th of this year,

"I was riding on the front end of a dummy of one of the Geary street cars on my way down from the French Hospital, where I had made a professional call. And when we had left Broderick street I noticed two little children, who appeared to be twins, playing on and across the tracks of the road some distance down the block towards Devisadero street. As we approached them one crossed to the north of the track, while the other remained on the south side. And when nearly down to them the gripman rang the bell very rapidly, and at the same time he and some of the passengers called out to the little fellows to remain where they were. But instead of doing as they were told, the one on the north started south across the track directly in front of the car, which of course struck and knocked him down. I looked over the rail intending to jump to the little ones assistance; but before I could do so, an officer deliberately threw himself over the front rail

on the south side of the dummy, grasped the child and dragged it from beneath the fender, held it over his breast while he was being shoved along by the fender and the car, until finally in some way rolled himself from the track. When the officer caught the child it was passing under the fender of the car, (being so small that the fender did not catch it up) and its little chest was within a few inches of the front wheel, which, had it struck the body in that position, would have crushed the life out of the little thing instantly.

'I have been an eye witness to several serious accidents and have treated a number of persons suffering from the effects of such, but must say that I never saw so much coolness and presence of mind displayed under trying circumstances as was shown by that officer on the occasion in question. There was more or less excitement among the passengers present. And I am free to admit that after it was all over had I been asked to write my name, it would be questionable whether anyone could read it or not. And yet that officer, after being the most interested of anyone there, went about getting the names of the witnesses and other data as unconcerned as though he had just arrived upon the scene, and had not been the principal actor in the brave and nearly heart rending play that had just closed.

'The name of the officer was unknown to me until reading the accounts published in the papers, wherein it was given as "Jack Stelzner"; but I do know that if there was ever a case of one human being owing his life to another, that little Clark baby owes his to that self-possessed, heroic and unassuming police officer, whose star number is 584 of the San Francisco Department.

'In the newspaper accounts the child's age was given as eight years, although he did not appear to me to be over four or five.

'I examined the boy that was knocked down, and found that he had not a scratch or bruise on him. In fact his clothing was not even ripped or torn.

'There is no blame to be attached to the gripman on the car, for he used every endeavor to stop it on that down hill grade, and no doubt saved the officer from more severe injuries than he received as it was.

'Now in conclusion I want to say that the citizens of this city have reason to be proud of having such an officer as 584 has proven himself to be. And I for one shall be glad to offer my humble praise and services in his behalf at any time the opportunity presents."

'Yours very truly,

'C. H. Carlson M. D.,

'Star King Building,

'City."

A communication from Horace G. Platt, President of the Geary street Railroad offering to Officer Stelzner a suit of clothes to replace those which he had ruined at the rescue, was read. Officer Stelzner being present made application to receive the reward. The following resolution was adopted:

RESOLVED, that Police Officer John B. Stelzner be and he is hereby permitted to receive a suit of clothes from the Geary street Railroad company as a reward for bravery.

## POLICE OFFICER JAMES P. FOGARTY.

AYES: Commissioners Reagan, Drinkhouse, Hutton.

NO: Commissioner Howell, who voted not guilty.

The majority filed the following opinion:

In this case we find that a disturbance in front of Mr. Schneider's restaurant on Taylor street, between Ellis & Eddy streets attracted the attention of Police Officer Fogarty who hastened to the locality, quelled the disturbance and then went into the restaurant to ascertain its cause when it commenced again. He left the restaurant and went out on the sidewalk, at which time Levitus was running down the street pursued by Young Mr. Schneider, one of the participants in a disturbance that was forced upon him by the improper conduct of others. Fogarty gave chase and overtaking Levitus struck him on the head with his club.

In our judgment the evidence shows that Levitus had nothing to do with the disturbance; but was running away from it scene; and while we think the officer was justified in using necessary force in quelling the difficulty in front of the restaurant, we do not

think he was justified in using his club and striking a man who was evidently endeavoring to do nothing but place himself out of harm's way.

In our judgment the officer is guilty of using unnecessary force in making an arrest.

(SIGNED).

H. W. Hutton,

John A. Drinkhouse,

Thomas Reagan,

Police Commissioners.

-Commissioner Howell filed the following dissenting opinion:

I find that the charges of assault and battery and unlawful arrest preferred against Officer Fogarty, are not sustained by the testimony produced.

It must be conceded that the presence of a large crowd or congregation of people on the public thoroughfare, is always a menace to the public peace and is a condition that at all times necessitates police control.

If such a crowd contains the elements of disorder, if the whole or any part of it is engaged in a brawl or street fight, whatever the cause, it is all the more a menace to the public peace and therefore the more a provocation for the control or intervention of the police.

That such a condition existed on this occasion has been clearly shown and proven by the testimony offered by both sides in this case.

That the complainant, whatever may have been the cause for his presence on the spot, nevertheless was there, and took an active part in the disturbance, if he was not, in fact, one of the instigators, has been proven. That Officer Fogarty succeeded alone in quelling the fight, arresting one of the participants (the complaining witness) and dispersing the crowd has also been proven. Nothing conclusive has been offered to prove that he used any force more than that absolutely necessary to accomplish this in the face of great odds and serious and violent opposition. On the contrary, from my point of view, he did his clear duty as an officer of the law, thoroughly and effectively, and acted entirely within his rights as such an officer.

No better proof of the good judgment and even temper of the officer is wanting than his demeanor on the witness stand where his story, calmly told, in a frank and concise way, was to me at least, most convincing of its truth; and his ability to control his temper under trying circumstances, was very apparent during his examination, when he might frequently have been provoked to a display of anger had he been a man easily ruffled or of vicious temper.

The Police Department of any large city, is a quasi-military organization entrusted with the maintenance of the peace and the quiet of the community and the observance of the laws on the part of its inhabitants, and if officers of the Police Department of this city, a department whose record for excellence is unsurpassed by that of any other city in the Union, are not to be upheld in their efforts to carry out their instructions and the orders of their superior officers, the discipline of the organization will become seriously impaired.

I am opposed to the unnecessary use of the club or of any un-called for force or violence on the part of any officer in carrying out his orders or performing his duty;

but in this case nothing has been shown to prove that Officer Fogarty departed in the slightest degree from his clear duty in the premises, and I find him Not Guilty.

(SIGNED).

J. R. Howell,

Police Commissioner.
